

Roboclean's Dust Capturing Ability Certified by TÜV®

The leading international expert in providing testing, certification, qualification, training and consultancy services, TÜV SÜD in Germany, officially certified Roboclean's dust capturing efficiency at **%99.99** percent. The result can be considered extremely successful, as all the tests were carried out at Roboclean's maximum motor power.

The tests were performed on 24.08.2011 by TÜV SÜD Product Service GmbH in Frankfurt, Germany. TÜV Technical Report No: 71386222
